very encouraged and are excited to hear that many are interested in our product," Mr. Humble said in a written statement to PRNewswire-First Call. "On the financing side, we are targeting an investment of US\$13M to US\$15M and are in negotiations with various banks on participation and for the lead investor to help with the increase in size," he added. The company's platform can help corporate, government and other groups, including non-profit organizations, manage their database of contacts more effectively and efficiently, he said. The software enables businesses, institutions, and organizations to manage their entire database of contacts including email, telephone, and social media in one convenient place, Mr. Humble said. "In addition, we are working with our partners to bring an intuitive and easy-to-use web-based tools to make business contact information accessible from any device or system," he added. "This will be on desktop, laptop, tablet,

smartphone, and other devices." "I had personally been using a similar platform for my own business and have had experience with other similar platforms," said Mr. Humble. "Since these platforms are so strong, we decided to help others simplify and automate the process of managing their database of contacts while working with our partners. These are the main focus areas, besides an easy-to-use, intuitive and user-friendly interface." He added:

"Our platform is ideal for any organization that wants to control every aspect of their database of contacts, including providing a means for companies to manage electronic forms for client surveys and feedback." The company's parent is a Silicon Valley-based venture capital-backed early-stage technology company founded in 2005 and incorporated in Delaware in 2008. The company
