in comic books, unlike in comic strips, the panels tend to be of uniform size, unlike newspaper comic strips, which are composed of a variety of sizes. because of the panels' relative uniformity, the medium can be used to either make a set of images or to convey a story with dialogue. the term comics is used to describe all forms of sequential art, whether they are in comic books, webcomics, graphic novels, manga, or any other type of comics. some claim that the term "comic book" has no valid usage anymore, others feel the term is well-suited to encompass every stand-alone, self-contained story (with no overarching narrative that extends beyond it), whether it takes place in or out of continuity and is intended to be collected as a single story or not.

bottom to top. the one thing most people agree on is that the panels should be exactly the same size, with no interstitial "gutters", or blank spaces, between them. however, as an important element of a comic strip, this is not as rigidly followed in comics.

Despite being heavily influenced by the French comic series Mortadelo, the Mortadelo y Filemon television series and the film Mortadelo, Filemon y Las Autos, neither the comic book series or the film can be viewed as official spin-offs of their counterparts, because their aesthetics do not fall into the comedy genre or into the satire genre. The comedy format is more proper for the television series, since it is less focused on action and action is probably the genre that it takes the most of.

Mortadelo and Filemon: Mission Implausible is not as much an action game, as an interactive adventure. The main part of the game takes place on the city map which is shown from a top-down perspective (except persons, cars and trees). Here the protagonists need to explore the city and its sewers to find clues on Bakterius' location. However, there are many locations where Clever &

Smart need to have certain items in their possession to proceed. For example to enter some houses Clever needs to use one of his trademark disguises or in the sewer they can tap telephone phone line with the right tools. The story begins with a car accident, one that results in the death of a little girl. The same accident triggers a downward spiral for Mortadelo and Filemon, and their families. Mortadelo and Filemon are forced to face a change in their ways, a change of culture and a change of philosophy. How does Mortadelo react to this unexpected change? What happens when one's identity becomes blurred and interwoven with other people? And, what does Filemon do about all this?
